

6-sided CD digipack

6-sided CD digipack with tray on the right side and a booklet slot in the middle.

- 3 mm trimming edge
- Trimmed size
- - - Perforation line / grooving

- Data format 442 x 256 mm
It contains the 3 mm trimming edge. Your data for us must have this size. (see „trimming edge“).

- Trimmed size 436 x 250 mm
The trimmed size in turn describes the final size if the print data is cut to the correct format.

- Trimming edge 3 mm
Print data always needs to be 3 mm bigger than the actual document. After printing it gets trimmed down to their final size. This prevents trapping – white gaps on the edge of the paper. (see chart – shown as grey area)

- Safety margin of 4 mm
from the edge of the trimmed size (see chart)
